PROFESSIONAL SUMMARIES

Data Analyst and IT Professional skilled in SQL, Power BI, Excel, and Python with experience analyzing operational and financial data, improving data quality, monitoring system performance, and delivering actionable insights to support data-driven decision making across multi-site environments.

SKILLS

Data Analysis & Reporting Data Processing, Data Validation, Data Quality Assurance, Performance Reporting, KPI Tracking, Trend Analysis, Data Consolidation
Business Intelligence Power BI, Tableau, Dashboard Development, Microsoft Excel, Data Visualization
Technical Skills SQL Server, Python (Pandas, Matplotlib, Seaborn), Database Management, System Monitoring, User Management, REST APIs, Git
Professional Skills Stakeholder Engagement, Problem Solving, Root Cause Analysis, Communication, Process Improvement, Team Collaboration

EXPERIENCE

IT Assistant

Nov '22 — Jan '24

Aviyan Laghubitta Bittiya Sanstha Limited (Microfinance)

Kavrepalanchowk, Nepal

- Analyzed operational and financial data using SQL Server and Excel, producing performance reports supporting decision-making across 60+ branch locations.
- Monitored and maintained SQL Server databases and network systems to ensure the continuous availability of business-critical data and reporting systems.
- Managed and maintained data integrity for 200+ user accounts and IT assets, strengthening access control, compliance, and data governance.
- Conducted root cause analysis of recurring system failures using logs and monitoring tools, implementing fixes that reduced system downtime by 95%.
- Collaborated with HR, Finance, and Operations teams to gather reporting requirements and deliver performance insights for operational decision-making.
- Reviewed and improved data handling processes, introducing validation checks that enhanced data quality and reporting reliability.
- Delivered cybersecurity and data handling training to 40+ employees, improving compliance and reducing data handling risks.

Junior IT Assistant

Sep '21 — Oct '22

Job Seeker Manpower Pvt. Ltd.

Kathmandu, Nepal

- Supported IT operations by troubleshooting system and network issues, ensuring stable daily business operations.
- Managed and validated applicant data for 200 to 300 candidates per cycle, ensuring accuracy, security, and structured record keeping.
- Maintained asset tracking and system databases, improving data organisation and operational efficiency.

PROJECTS

Comparative Analysis of Academic Performance and Career Outcomes [Link](#)

- Analyzed multi-sheet educational datasets using Python, Pandas, and Seaborn. Built data visualizations and delivered actionable insights to identify factors impacting academic outcomes. Added basic system administration tasks for dataset management and access control to support reproducible analyses.

IMS-CONNECT (Innovation Management System) [Link](#)

- Developed a full-stack IMS-CONNECT web application using React, Node.js, Express, and MongoDB, implementing secure authentication, role-based access control, and REST APIs to enable centralized data management, improved collaboration, and innovation tracking.

EDUCATION

MSc in Information Systems, University of West London

Feb '24 — Jul '25

London, United Kingdom

- Relevant modules: systems analysis, databases, information security, and IT service management (networking and systems administration topics included).

BSc (Hons) in Computing, Softwarica College of IT and E-Commerce (Affiliated to Coventry University)

Jan '18 — Jul '21

Kathmandu
